## PROFILE

I am a proficient Frontend Developer skilled in creating responsive websites using React JS. I also have experience in developing mobile apps with Flutter. With a strong focus on clean, user-friendly design and a commitment to staying current with industry best practices, I excel at delivering visually appealing and high performing digital solutions. My collaborative nature, problem-solving abilities, and dedication to meeting project deadlines make me a valuable addition to any team looking to craft intuitive and interactive web and mobile experiences.
